

Elosta Monthly Membership Meeting

Thursday March 8, 2007

Minutes

(Also available at www.elosta.org)

- Actually, I was unable to attend this meeting for health reasons and, bottom line, **there are no minutes**. I am advised that Doug Fuegel, acting in behalf of President Ames who was still in Florida, called the meeting to order and then turned it over to DEC and USGS Staff for their State of the Lake presentation. The reading of the October 2006 Minutes and the current Treasurer's Report were tabled until the next monthly meeting on Wednesday, April 18th at Gander Mountain.
- However, I would like to take this opportunity to thank all of you who sent cards, letters, and emails expressing your concern and hopes for Carol and me when I was diagnosed with aggressive prostate cancer last November. The problem, which required immediate attention, was removed in February and we were quite happy to learn that the affliction had not migrated. So, after a winter of apprehension and 12 feet of snow, I am looking forward to getting back to doing what I came to the area for **FISHING!!!** *Mac MacKenzie – Secretary*
